25X1A [] of the Inspection Division/I&S, discussed with me
the security violation which occurred on 21 April, which was caused
25X1A by a staff member of OSI leaving a highly classified Restricted Data
document in the hearing room of the Joint Congressional Committee
on Atomic Energy. I informed [] that the Watch Officer called
me on 21 April to state that Mr. Borden, Executive Director of the
staff of the Joint Committee on Atomic Energy, had called him to state
25X1A that the document had been left and had been secured by Mr. Borden
for the night. I told [] that after failing to reach Dr. Chadwell
25X1A I had gotten in touch with [] immediately and reported this
violation to him with instructions to secure the document the next day
from the Committee and to take appropriate steps in connection with
the violation, which was chargeable to []
25X1A
